MEMORANDUM

FROM: DEHA

TO: DCE/DCD

DATE: 28TH MAY, 2021

SUBJECT: REPORT ON NUTRITION EDUCATION PROGRAM FOR SCHOOL CATERERS AND FOOD VENDORS.

I submit a report on nutrition education program organized by the Environmental health unit to the school caterers, kitchen staff and food vendors in the district for your attention and action.

DATE AND TIME OF THE PROGRAM: 22nd May, 2021 from 9:00am to 12:00pm

LOCATION OF THE EDUCATION PROGRAM: The education was given to the school caterers, kitchen staff and food vendors within all five (5) area councils which are Nkaben, Kwabre Manhyia, Adwumakaasekese, Kodie and Ankaase. Venue for the program was Kodie SDA Church.

PARTICIPANTS OF THE PROGRAM: Matrons, Caterers, Kitchen staff and all food vendors within the district.

ACTIVITIES: The program took place at the SDA Church, Kodie. 302 participants took part in the training.

DETIALS

SN	NAME	PARTICIPANT S		TOTAL
		MALES	FEMALES	
1	Caterers	2	69	71
2	Food /Drinks vendors	17	205	222
	Total			293

Officers from the Unit trained the participants on proper nutritional practices to be ensured in their various schools and eating places. Proper nutrition for school children and the general public will improve their growth and health as well. The participants were grateful for the knowledge imparted unto them and were willing to put it into practice at their various institutions. Officers were also charged to do a follow up program to all the educational institutions to ensure that what had been taught would be practised accordingly.

RECOMMENDATIONS

1. The Assembly must support the Unit to do these programs at least once in every quarter to enhance good nutrition for all school children and the general public in the district.
2. The Assembly should help the unit with mega phones to use in educating the public during their health education program/activities.
3. To enable the unit to monitor and control proper nutritional practices in schools, the Assembly should help the unit with a vehicle to ease movement in the process.

CONCLUSION

In conclusion, the above recommendations should be implemented by the District Assembly to help improve our health education delivery.
